ASSOCIATED PRESS REPORTS BRIEFED. The Colorado River Irrigation Scheme.

> Charges Against John C. Beatty.

Millions of Dollars and a Million and a Half Acres In-volved.

The Assets of the Company are Given as Forty Thousand Dollars, Yet It Cannot Pay the Rent of Its Offices,

Sasociated Press Leazed-wire Service.

NEW YORK, Sept. 10.—According to althe United States Circuit Court, Judge La take action with the object of preventing of what is characterized as one of the most colorsal frauds in modern times. The chief actor in this scheme is John C. Beatty, an American, who at present renent New Yorkers and other residents of the United States and Canada.

How far the scheme has succeeded ha

not yet been determined, but one victim, James H. Beatty, president of the German and Northwest Insurance Company, of Ontario, Canada, and of the Federal Life Assurance Company of Hamilton, Ontario, swears he has lost \$37,500, and it is charged that the goal of John C. Beatty's ambition was to fraudulently obtain pos don of \$7,500,000. The complainan in the case, in addition to James H. Beatty, are James C. Aiken, Benjamin H. Doane and Lee Wormser of New York. The defendants are Frank A. Miller, C. H. Samuel N. Wood, F. P. Earnes Frank Church, J. N. Brown, C. W. Kittredge, J. W. Carliele, T. J. O'Donnell of

tredge, J. W. Carliele, T. J. O'Donnell of California and John C. Beatty of Texas, all directors or trustees of the Colorado River Irrigation Company.

The company was first organized on January 7, 1891, under the name of the Arizona and Sonora Land Irrigation Com-pany, but the title was changed on Janu-ary 9, 1893, to its present form. Its osten-stile object was in carry or the irrigation able object was to carry on the irrigation of land in California, Arizona, Lower California and Mexico. Its capital stock was \$7,800,000, divided into 180,000 shares, of

\$50 each.
According to the complaint, however, the company was organized by John C. Beatty for his sole interest and benefit. and to enable him to realize \$7,500,000 or a tract of worthless land containing 1,500, 000 acres on the Alta River, in the pro-vince of Sonora, Mex., to which it is said the did not even have a title.

Having organized the company and obtained the issue of the capital stock by alleged fraudulent and fictitious statements, it is charged that John C. Beatty went about negotiating with the object of transferring the land to the company for the whole of its capital stock of \$7,500,000. The land formed part of what is known in Mexico as the Jecher concession, the meaning of which is not explained in the complaint, but it is charged that John C. Beatty had no title to it. The board of directors, it is charged, were then, as now. the mere tools and creatures of John C. Beatty, ready and willing at all times to carry out his behests. The president of the board was Charles H. Dow, and by a vote of the majority it was agreed to trans fer 250,000 shares of the company to John C. Beatty for \$7,500,000, as soon as it was possible to carry out the transfer. The directors being Betty's factorume, made no effort to investigate either the character of the land or the ganuineness of Beatty's title to it.

To further facilitate matters, Beatty's board of directors decided to appoint him manager, with exclusive control of affairs, at a salary of \$6000, while F. A. Miller, concerned with Beatty, was elected viceconcerned with Beatty, was elected vice-president of the company, and also given a salary of \$6000 a year, both of which transactions are charged to be illegal. The first transfer of stock was made on January 10, 1894, by the board of di-rectors, when 54,000 shares were trans-ferred to John C. Beatty, on the basis of 560,000 acres of land, or one share for

ten acres.

John C. Beatty himself presided at this John C. Beatty himself-presided at this meeting, and, against the protests of James H. Beatty, a stockholder, it was agreed to issue 56,000 shares of new stock. In March last J. H. Beatty obtained from the Supreme Court of the State of New York a mandamus, requiring the directors to show him the books, but John C. Beatty went to California, taking the minute looks of the transactions with him, and of the Jecher concession.

The known assets of the company did not exceed \$40,000. It has had no bank account since last October, and was obliged to give up its office at No. 66 Broadway. this city, last July for non-payment of rent. Its offices in Philadelphia, Washing-ton and other cities had been previously given up after the country for miles around had been flooded with prospectuses and pamphlets, declaring the land an El

has an office is in Providence, R. I.

The company's known property in California consists of chattels worth \$39,617,
which John C. Beatty, by bill of sale, alleged to be fraudulent, transferred to the engineer, Charles R. Rockwood, without any consideration. In addition to this, Rockwood, it is said, is still drawing \$400.

Rockwood, it is said, is still drawing \$400 a month in wages for doing nothing, but the company owes him \$10,000, although he never did anything for it.

Judge La Combe will be asked to appoint a receiver to take charge of the affairs of the company. He will also be asked to declare that the issue of 56,000 shares of stock was spurious and tilegal, and that the contract between the directors, on one side, and John C. Beatty on the other was fraudulent and ultra vires, and that the whole transaction was void. An injunction is asked for to prevent Beatty from selling or transferring

Ern est Glaze, son of a well-known farmer liv ing at Versilles, and Miss Effic Ingram, only daughter of Frank Ingram, a wealthy retired farmer living in Versailles, Brown county, determined to bring a courtship of three years' duration to a close, and started three years' duration to a close, and started to go and be married at Clayton, and from there to Quincy. At Clayton the girl met a young man, a former lover, and the old love was rekindled, and then and there she determined to turn the cold shoulder to George, and set about to capture the former Clayton lover.

She determined may to so to Quincy, but

She determined mot to go to Quincy, but to come to Bowen, so she gave the young lover the "slip" and arrived here on the morning train. Young Glaze came here looking for her, ignorant of the fact that she was trying to get dir of him. Bowen people were told by Miss Ingram that young Glaze was after her and asked for protection, and shat he had sworn to kill her if she refused to marry him, and that she did not want to marry him, as she was in love with the young Claytonite. She was taken to the home of a relative near Denver, where she was promised protec-tion, and male relatives guarded the prem-

ises to see that young Glaze did not enter.
Young Glaze arrived in search of the
girl, whom he was madly in love with, but could gain no tidings of her, and started on the hunt for her. He visited every town in this section of the State, but could hear nothing of her whereabouts. Subse quently he returned to Bowen, armed with the young lady's wedding trousseau, and a \$100 note which she had given him to keep and which was presented to her on he twenty-first birthday. Young Glaze of fered large sums of money if some one says he never threatened to kill the girl.

GUTHRIF (Okla.,) Sept. 10 .- One of the prominent persons to be left in a peculiar fix by the decision of the Supreme Court annulling so many divorces is William A. Depew of Boston, a cousin of Chauncey M.
Depew. Depew came here last winter,
and, after a three months' stay, secured a divorce from Rosella S. Depew on the ground of incompatibility of temper. With him came Mrs. Mary E. Jordan of Bos-ton, who, on the same day of Depew's divorce, procured one from Charles H. Jordan of Boston.

On the following day, the two left for Kansas City, where they were married, and then went to Europe on a wedding tour. Both are wealthy and prominent society people of Boston, and are now left in a peculiar predicament.

BERLIN, Sept, 10.— (By Atlantic Cable.) The Boersen Zeitung today publishes an interview with
Dr. Witte, the Russian Minister of Finance, in the course of which he says
that the Czar desires to be at peace with
the whole world. It is a great mistake, Dr. Witte adds,

to suppose Russia is disposed to violate peace for the sake of France. The Rus are convinced of the love of Em peror William and Emperor Francis Joseph for peace, and it is lamentable that armaments of the nations continue to enlarge when the Emperors desire peace.

The Truce Ended.

PITTSBURGH, Sept. 10.—The first da of the twenty-eighth annual encampmen of the G.A.R. has closed, and nothing bu the best can be said of it. The west! has been superb and the crowds large, a

parade of the naval veterans, who went over the route with precision and e ence of drill that called forth the heartiest cheers from the spectators. The erans numbered 1000, and were led by the ladies of the G.A.R and the W.R.C. were taken through the city and suburbs in carriages, following which a recep

Some of the delegates who have attended similar affairs, pronounce the most gorgeous ever witnessed. The The floral decorations were the finest ever seen in this city. Henry Watterson, ex Gov. Beaver, and all the prominent naval officers of the G.A.R. were present. Many reunions were held during the day by members of the different regiments, and many were the reminiscences exchanged.

Today the sidewalks were inadequate to accommodate the crowds that thronged them, and the roadways were used along the main streets. Street cars and vehicles were blockaded. Taken altogether, hicles were blockaded. Taken altogether, Pittsburgh has never before enjoyed such serenading the newspapers and promin

Expressive started in the 2:16 class race, which was begun on Friday last, two heats seing trotted before darkness came on to ause postponement. The mare was heavily backed as a tavorite, and her chances o win were regarded as extremely good, lithough Stroutia won the first heat and udge Austin beat her in the second. When she was taken away from the track on Saturday might, her backers were set in the lurch, as the bets stood, just the ame as if the mare was on hand to trot it wit.

Thousands of dollars were thus lost without giving the bettors a show for their money. It was too wet to call the race upon Saturday, and an effort was made to bring about a compromise among the horsemen concerned, by which the money be divided and the race declared of Everybody agreed to this except the owner of Judge Austin, who felt confident of winning the race. The race was carried over until today. The owner of Expressive had an engagement for his mare in Terre Haute this week and he wanted to get away from New York at once. He therefore shipped Expressive along with his other horses, and she did not respond to the harnessing bell for the unfinished race beday.

The judges declared her ruled out for son-appearance, and, after the conclusion of the race, they took the spectators reath away by announcing that Monroo Eslisbury stood expelled from all Nationa Association tracks, the claim being made that Salisbury openly defied the rules of the turf as well as the judges of the meeting by taking his mare from the track then she was legally in the hands of the meeting by taking his mare from the track that the salisbury openly defied in the hands of the meeting by taking his mare from the track that the salisbury openly defied in the hands of the meeting by taking his mare from the track that the salisbury openly defied in the salisbury open the salisbury open the salisbury open that the salisbury open the then she was legally in the hands of the Miclais. The Disaster on the Paris and Cologne Railroad.

logne Railroad.

PARIS, Sept. 10.—(By Atlantic Cable.)
The disaster to the Paris and Cologne express train at Apilly yesterday was more serious than at first supposed. The first estimate placed the number of persons killed at ten, with twenty injured. Twelve bodies have already been taken from the wreck. The accident was due to the slow shunting of a freight train at Apilly. The engineer of the express saw cars on the line and reversed the engine. The shock of the engine was borne by the three front cars. As soon as the accident became known, priests and others hurried to the

railroad station and did everything possible to assist the dying and injured.

The report that the station master at Apilly had committed suicide by jumping in front of the train when he saw that a collision was inevitable turns out to be incorrect. The station-master ran along the track while trying to signal the express and freight train, and was caught between the two trains and killed. It seems certain that there were Americans among the killed or injured.

Associated Press Leased-wire Service.

SAN FRANCISCO, Sept. 10.—The Examiner says; "Mrs. Stanford has paid off the last of the debts due from the Stanford estate, and has this early got its great properties in almost perfect order. She is now anxious for a distribution of the estate, so that she may secure perthe estate, so that she may secure per-sonal control of the millions of which she is now executrix. As soon as the distri-bution is ordered she will begin operations in a new field. Then, under her personal supervision, the erection of \$500,000 worth of new buildings and the early expansion of the university to three times its pres-

has been ably attended to, and the hypothecated securities have been released. The three great estates, the Palo Alto, Gridley and Vina ranches, 8000, 17,000 and 60,000 acres, respectively, on which Senator Stanford lavished expense and experiments, have been put on a strictly business basis. Mrs. Stanford has now leased all these properties in parcels, with the exception of the vineyard and stockfarms and the land necessary for their maintenance, and the brandy at Vina, of which Senator Stanford never sold a gallon, is still going to Europe and elsewhere in immense quanti-

ford never sold a gallon, is still going to Europe and elsewhere in immense quantities.

"The estate is nearly ready for distribution, except for three claims that are pending. One is a suit for \$75,000, involving a horse, which is pending on appeal, and another is a suit for \$7000, brought recently by a Palo Alto bookseller, who asserts some sort of a contract about supplying books to the university. The other claim is the \$15,000,000 claim against the Stanford estate which Atty-Gen. Olney has presented on behalf of the government to Mrs. Stanford as executrix.

"This suit is an annoyance to Mrs. Stanford, because so long as it is unsettied it will prevent her from spending a dollar of; the estate in behalf of the university. This claim the executrix has repudiated. The estate will be ited up as long as the claim is pending. The 'Stanford attorneys are doing what they can to expedite a settlement. They are urging Atty-Gen. Olney to begin and push his suit, and have said that they would waive all objections based on technicalities which might otherwise delay a trial of the issue on its merits for years and until the claim is fully due. But a small portion of the indebtedness will fall due in January, 1895, when the first of the mortgage bonds are payable. The rest will fall due in several successive years thereafter. It has

is fully due. But a small portion of the indebtedness will fall due in January, 1895, when the first of the mortgage bonds are payable. The rest will fall due in several successive years thereafter. It has been a question with Mr. Olney as to his power to bring suit before the whole indebtedness is due.

"Mrs. Stanford has been arranging to begin large operations at Palo Alto next spring. The present quadrangle and the few brick buildings in its rear are but the nucleus of the great groups of buildings planned by Senator Stanford, and his plans are to be carried out without change. The present quadrangle is to be inclosed by a large and still more handsome one, and several groups of buildings are to flank it. The plans for early enlargement of the institution include a large amount of new apparatus, the early purchase of 50,000 books, the employment of a great many new professors and instructors, and the opening of new departments. The plans for the future as settled upon include a conservatory of music that shall be equal to anything in America, the equipment of a great art school, departments of professional instruction, etc.

"Mrs. Stanford has stated that all of her property and all of the estate willed to her by Senator Stanford is, with the exception of a few comparatively small bequests, to go to the university and what when the estate comes into her private possession it will be used for the university quiring her life as it will be after her death. There is an ample income to keep the university going at its present cost of about \$200,000 a year.

"The estate of which she is executrix was appraised at \$17,000,000. This includes

university going at its present cost of about \$200,000 a year.

"The existe of which she is extoutrix was appraised at \$17,000,000. This includes the bequest of \$2,500,000 to the university, and that of \$300,000 to Thomas Walker Shanford of Australia, which has been turned over to the university by Mr. Stanford. The university can get nothing from these bequests until distribution is made. As soon as distribution is effected, the Stanford University will at once have added to its available income the income of \$17,000,000. It will from that time have practically the income of the entire Stanford fortune, which in times of ordinary proaperity would exceed, it is stated on good authority, \$1,500,000 a year, its income will be three times that of Harvard, the richest of American universities, wod greater than that of the University of Berlin."

were sensational disclosures in the trial of Helen Grier today for poisoning her husband. The State had failed to prove husband. The State had falled to prove that the stomach analyzed was that of James Grier, and it came out today that it had sought to repair this defect last Sunday by going secretly to the grave again and exhuming the body. At this examination, Coroner Newman, Prosecuting Attorney Fenton, two daughters of the defendant and Sheriff Pugh were present. The identification was established. In court today, the defense objected to this as irregular, and opposed the admission of testimony thus developed. The court sustained the objection, and ordered another examination, at which the defense should be present. The defense took an exception, and declined to take part in the third exhumation.

SAN FRANCISCO, Sept. 10.—A sensational defense will be offered at the trial of Mrs. Elizabeth Bryan for the murder of her sister, blind Nency Meagher, at Petaluma. The claim will be made that the real murderer is William Klein, now under sentence of death for another murder at Monterey.

A number of speople of Petaluma saw a young man armed with a shotgun near the Meagher house on the day of the murder. No trace of him could be found, but a few months later another murder was committed near Monterey with a shotgun. Klein was arrested and convicted of this crime. He answered the description of the man seen near the Meagher house, and admits that he was at Novato, near Petaluma, on the day of the Meagher murder.

Associated Press Leased-wire Service.
SAN JOSE, Sept. 10.—San Jose neve Associated Press Leased-wire Service.

SAN JOSE, Sept. 10.—San Jose never presented so brilliant an appearance as it did this morning when the parade of Native Sons took place along its gorgeously-decorated streets. The day dawned bright and beautiful, an auspicious opening for the greatest celebration in the history of the city. Although thousands came on Saturday afternoon and evening, and that number was duplicated yesterday, yet the trains that arrived this morning from the north and south brought hundreds more to be present at the great day of celebration, the climax to the feast of enjoyment in honor of California's natal day that began on Saturday night, and will end in a blaze of light, beauty and fashion at Turnverein Hall, the Vendome. Odd Fellows' Hall and elsewhere tonight. The streets at 10 o'clock presented an appearance denoting that nearly every resident of Santa Clara—county was in the Garden City to view the eight, and a considerable part of outside California besides. It is safe to say that not less than 20,000 people viewed the grand parade. First, Second and Santa Clara—

besides. It is safe to say that not less than 20,000 people viewed the grand parade, First, Second and Santa Clara streets being literally lined with humanity, Every window in the upper stories of busi-ness blocks was occupied, awnings and porches were crowded, and, although the day was almost a little warm, the crowd was notable for their good-natured treat-ment of every little inconvenience that was bound to arise in such an awful throng.

day was almost a little warm, the crowd was notable for their good-natured treatment of every little inconvenience that was bound to arise in such an awful throng.

The parade was the greatest thing of the kind ever witnessed in the Garden City. Exempt firemen of San Francisco, Mexican war veterans and pioneers in carriages also caused great enthusiasm, but the greatest ovation of all was tendered to the two pariors of Native Daughters—one of San Jose and the other of Los Gatos—that marched in the parade. San Jose Parlor No. 81 appeared in dresses of white ducking, and carried Japanese parasols. Each wore a white flannel tennis cap and each kept perfect step to the music. All along the line of march the men cheered and the laddes waved their handkerchiefs and parasols to the representatives of Parlor 31, N.D.G.W.

Their banners were carried by colored men, some of them dressed in crimson or scarlet, others in bottle green, all in starting colors. Some of the sunshades were at least thirty-six feet in circumference; many of the banners were truly magnificent in texture. Most of the fine banners belonged to the San Francisco parlors. It took the procession an hour and five minutes to pass the corner of First and Eldorado streets. The procession on the whole was made up of as fine an appearing body of young men and women as ever marched under the banner of the Stars and Stripes in any State in the Union. They looked as though fully understanding the noble heritage that had been handed down to them by their fathers, the ploneers of the '40s and '50s.

Not less was the feeling of pride in the heart of every American citizen who viewed the parade that this Western land of fruit, yrain and flowers could claim the Native Sons and Daughters as the most giorious product of all.

A PARADE OF CYCLERS.

SAN JOSE, Sept. 10.—Prior to the parade by the Native Sons this morning, the Associated Cycling Clubs of California had

rade by the Native Sons this morning, the Associated Cycling Clubs of California had a parade. There were between four and five hundred men in line. The clubs having the most men and making the best show were the Acme of Oakland, the Olympic, California Cycle Club and the Bay Clity Wheelmen of San Francisco. Y.M.C.A. clubs from all places were represented, riding as one club. The San Jose Road Club, Garden City Cyclers of San Jose and the Reliance of Oakland also took part, and numerous other clubs were in line.

The Acme of Oakland was awarded the prize for having the most men in line—seventy—and the Reliance of Oakland the prize for the best appearance, thirty-one men. The Garden City Cyclers had thirty-five men, and their banner captured the prize for being the most beautiful. The Olympic had fity-nine men in line, the California Cyclers eighteen, the San Jose Road Club thirty-seven, and others a less number. The parade was late in starting, and, owing to the throng on all the leading streets, was somewhat broken. The winning banner was magnificent.

UNGODLY YOUTHS.

SAN FRANCISCO, Sept. 10.—Dr. Dille has serious doubts about the usefulness of the order of Native Sons of the Golden West. He said so last night in a sermon preached to his congregation at the Central Methodist Church. His faith in the validity of the order's claim-to existence was shaken by the celebration now being held at San Jose.

Dr. Dille's criticisms of the Native Sons were made in the course of a sermon on Admission day. He began with the admission of California, forty-four years ago, and traced the moral and material progress of the State through all the epochs of its growth to the present day. Although he likened the ploneers to the Pilgrim fathers, he found faults in their composition, which he said, had descended to their children and menaced the prosperity of the State. Of these faults he considered the most serious to be ungodiness, love of money for its own sake, and gambling. Dr. Dille said that, in common with other clergymen in this city, he had been pained to read in the daily press of the preparations the Native Sons had been making for their celebration today. Without a thought of the sanctity of the Sabbath, they had gone by trainloads from all parts of the State to San Jose in order that they might break the first hour of the holiday and continue their revery without restraint. No excuse, he said, could be offered for starting so early, as they could have gone this morning and been in plenty of time for the day's festivities. To him it looked like an act of carelessness that the Christian homes of

San Jose should have been disturbed on the Sabbath by revelers, "not unlike a band of hoodluma"

band of hoodiums."

PIONEERS AT 'FRISCO.

SAN FRANCISCO, Sept. 10.—With nearly all of her Native Sons and Native Daughters in San Jose, the city of San Francisco had to rely upon the California Society of Cloneers for a fitting celebration of the anniversary of the State's admission to the Union. The Ploneers celebrated the anniversary by holding appropriate exercises in their hall on Fourth atreet. Joaquin Miller read an original poem, and Gen. W. H. L. Barnes delivered a stirring oration.

Gen. Barnes went into affairs of the pres-Gen. Barnes went into affairs of the present day, paying particular attention to the "boas" in politics and the evils of unrestricted immigration. He declared that Americans never take interest enough in their politics to elect decent men, and that all the trouble in the country was caused by people whose names begin with "Mac" or end with "sky." He said foreign immigration must be restricted or the country would soon be plunged into a religious war.

try would soon be plunged into a religious iwar.

Another event of the day, and one peculiarly fitting, was the laying of the corner-stone for the group of dick statuary which is to be erected in the open opposite the new City Hall. The monument, which is to be representative of the early history of California and the trying times through which the ploneers had to go, is being erected in observance of the thistieth trust of the lats James Lick, the pioneer, philanthropist and lover of science, art and humanity. The great telescope on Mt. Hamilton, the Lick Old Ladges' Rome, a magnificent public bath-house in this city, the Mechanical School and Academy of Sciences building and several smaller monuments are among the bequests of James Lick to the public.

OMAHA RATEROADERS BADLY SCARED.

A Blacklist That is Worked With Crane — The Garment Cutters' Strike at New York—The Newark Cloakmakers.

Associated Press Leased-wire Service.

OMAHA, Sept. 10.—Comaha railroad men are much alagmed over the discovery of what they regard as a novel blackdist being worked by all Western railroads. Since the strike, men seeking employment are required to bring clearances from their last company. The men claim that all companies are using a sheet of paper, on which to write these recommendations, that has the figure of a crane worked in it, and, while the writing may indicate that the bearer is all right, the position of the bird on the paper really determines the applicants standing.

In this manner, by a secret code of signals, the railroads, the men assert, can write them a letter, and by using paper with the figure of the crane, indicating dissatisfaction, prevent their securing work. The men are very much alarmed.

OMAHA COOPERS.

OMAHA COOPERS

OMAHA Sept. 10.—The coopers in the Swift & Co,'s packing-house, in South Omaha, struck this morning, because the manager refused to discharge two non-union men, employed during the recent strike of butchers. The strikers announce that if the men are not discharged by tomorrow, all the coopers in South Omaha will strike.

will strike.

WORKING TOO LONG.

NEWARK (N. J.,) Sept. 10.—Five hundred cloak-makers quit work today and twenty-two shops closed. The men assert that they are compelled to work eighteen hours x day, and that the strike is to secure a reduction to ten hours.

NEW BEDFORD MILLS.

NEW BEDFORD (Mass.,) Sept. 10.—The city miles started up today at the old rate of wages. About two hundred and fifty operatives resumed work.

PLENTY OF GOLD.

After the big gold fields of Australia and California began to give out, pre ons were heard on all sides that the supply of gold would fall off so erably as to become much less than the demand. These prophecies have proved to be entirely unfounded Whether or not it is on account of the low price of silver which has led prospectors to search in other direc-tions, the fact remains that two of the greatest discoveries of gold that have ever been made have occurred during the past couple of years. Scarcely had great strike in South Africa, in a locality which some believe to be the irce whence Solomon drew his gold for the building of the temple, been unced, than the news was re reived of another great find in West Australia, where huge boulders have en found on the surface of the nd that contain gold in nuggets, round that contain government of imse richness. The business depres en which has prevailed for some time Australia has led to a largely ined prospecting of the older fields, nd further new strikes are reported month to month. It is evident instead of a decrease of the pro ction of gold we may expect a large crease during the next few years, sich will be a good thing, as it will to lessen the depression of silver may increase the value of that

POLITICAL POINTS

It looks as if the Hon. J. Sloat Fassett's gubernatorial boom had gone on a side-track to wait for orders.

Senators Chandler and Hill are warm personal friends. Grover and Hill are warm personal enemies. Wilson of the Wilson bill is running for re-election on the strength of a bill that didn't pass and on a ticket that won't

win.

The Oakland Enquirer is of opinion that while the Populists will make gains in some of the San Joaquin Valley counties, they will poll fewer votes than they did two years ago in the raisin counties—Fresno, Madera, Tulare and Kings—for the reason that their party has no policy in regard to the tariff, and the growers of raisins teel that their salvation lies in tariff protection.

cast that way in the district.

(Oakland Tribune:) The question is perfectly legitimate, and it is asked in all sincerity and frankness: In what way is a man better fitted for the office of Governor by wearing a \$25 silk nightshirt or in making a political campaign in a buckboard? Perhaps Budd can explain to the audiences which he contemplates addressing from now until November, unless "that voice" of his gets too badly strained, for both the silk nightshirt and the buckboard have been consplctiously displayed in his interest by his admirers since his nomination on the Democratic ticket was made.

The Governor of the State will have a large patronage to dispose of. The Stockton Mail thus sums it up: "Seats on the Supreme bench made vacant by death or resignation; seats on the Supreme bench made vacant by the same cause; directors of the State prisone; of the lunatic asylums; of the different homes, and State institutions of whatever character; Harbor Commissioners; Fort Warden; State Analyst; Pilot Commissioners; Bank Commissioners; Insurance Commissioner; Labor Commissioner; Board of Arbitration; Board of Health; Dental Examiners; Park Commissioners; Police Commissioners (in San Francisco:) Fish Commissioners; Police Commissioners (in San Francisco:) Fish Commissioners; Police Commissioners (in San Francisco:) Jim Budd froths at

(Chico Enterprise:) Jim Budd froths at the mouth and claims to have the anti-railroad rables worse than any one, not barring Webster. It is a noticeable fact, however, that the San Francisco contingent which swung into line and nominated him, also selected Jim Nelson and Doc Stanton, two well-known railroad assets, for positions on the same ticket.

The Republican campaign has started in under highly-favorable auspices. Keep the ball rolling to victory, with a big V, in November.

The Pine Tree State Rolls Up a Big Republican Majority—Breckin-ridge Smiting His Foes— Peffer Disgusted.

CHICAGO, Sept. 10.—The Record this norning publishes an interview had by a correspondent at Augusta, Me., with Joseph Manley, the well-known Republican mem-ber of the National Committee, on the Presidential nomination in 1896. He is

quoted as saying:
"In the next Republican National Convention Mr. Reed will be a candidate for the first place on the ticket. All New England will be solid for him, and the delegates from Maine will be for him in delegates from Maine will be for him in the convention, first, last, and all the time. In the last convention, in 1892, Mr. Reed could have had the second place on the ticket as a gift, but he did not care for it, and neither will be, in 1896, accept the second place."

Mayley was asked: "It is not likely that

Manley was asked: "It is not likely tha a deal may be arranged whereby the ticket will be Reed and McKinley or Mc-Kinley and Reed?"

Manley, after a few moments' reflection,

Manley, after a few moments' reflection, replied with an emphatic "No."

Continuing, he said: "There is no likelihood of such a deal. The Republicans of Maine will be loyal and steadfast to Mr. Reed as they have been to Blaine in the past. McKinley that Mr. Reed was antagonistic McKinley that Mr. Reed was a state of the Presidence to his candidacy for the Presidence 1892. McKinley himself, during the land went among the

to his candidacy for the Presidency in 1892. McKinley himself, during the week of the convention, went among the delegates and discountenanced the boom that was being made by his friends in his behalf. Certainly nothing that Mr. Reed did could have injured Gov. McKinley in the convention. Reed was loyal to Blaine."
Touching the Presidency and the ability of candidates, Manley made a cursory survey of the field. He said: "There are likely to be some candidates for the nomination other than Mr. Reed or Gov. McKinley, My ideal for the Republican candidate is John Sherman, for he is undoubtedly the most accomplished man, from his long experience in the public service. But he is now 72 years old. This also applies to Justice Mcgrill of Vermont. Robert Lincoln might be presented as the favorite son of Illinois. Gen. Harrison may again be a candidate for the nomination, but the ex-President is not likely to have the strength he had in the convention in 1892.

the ex-President is not likely to have the strength he had in the convention in 1892.

"Do I think the Populists will be a factor in the next Presidential campaign? Well, no, I don't. I don't believe they will hold the balance of power in the next electoral college."

"Who are the Democrats likely to nominate for the Presidency in 1896?"

"Just now there seems to be some feeling in the party, and, from sheer necessity, they will turn to Grover Cleveland for a third term. Of course, such a move would be an innovation, and would be dangerous for the party. Yet there are people who will say a third term for President Cleveland would be no violation of the traditions of our country, for the reason that there was an interregnum between his first and present terms. But this argument is net likely to stand, for purblic sentiment would be decidedly against the proposition, as was the case when Gen. Grant, in the height of his fame, sought a third-term nomination in 1880, after he had been out of office four years. Gen. Grant's experience ought to settle the question of third-term Presidential candidates for all time."

Referring to David B. Hill as a possible candidate, Manley remarked that the Senator of New York had proved himself an exceptionally able man. The tariff, according to Manley, would be the issue between the two great parties in 1896.

The committee finished its work late this afternoon. The College Club representation was settled for all time by the report of the special committee appoointed at the Denver convention. At the Denver convention, the college clubs were represented by a single delegate, who held proxies for half a hundred clubs, and it was his vote which decided the place of holding the next convention, giving it to Cleveland, O. The Western delegates, who were fighting for Des Moines, Iowa, were considerably worked up over the matter, and insisted upon definite rules governing the college clubs. The committee made the following report, which was unanimously adopted:

"The American Republican College League shall be entitled to representation in the next convention of the National Republican League by its president and secretary. The 1895 convention of the College League shall elect to the national convention, in addition to the above, one delegate for each college club represented in its convention by one member or more of said club. Thirty days prior to the convention the president and secretary of the college club represented in its convention be held to the club which he represents. In a recent speech Lol. Brackinridge scored Judge Morton very severely. Judge Morton last (Wednesday repiled in a public meeting in Lexington, and his arraignment of Breckinridge was intensely severe. Col. Breckinridge's rejoinder is in the form of an interview that will appear in the Transcript tomorrow. It reviews the lifetime association between the men, and how Morton acted when the Poliard trouble came out, and since the present Congressional contest has been waging.

While the relations between the men are so strained as possibly to cause reference to the code from either, the colonel closes by saying that they have always lived together at Lexington, and must live together at that place hereafter. He says: "All the secrets of my life have been made public. He knows full well what they are I leave them to his conscience and his lerowledge without the slightest desire to wound him or those who love him."

F. W. Henshaw and E. S. Torrance, nominees for Associated Justices of the State Supreme Court, and S. T. Black, nominee for State Superintendent of Public Instruction, occupied seats on the platform. Preceding the evening's speaking, a torchlight procession was formed, as an escort for the speakers, marching from the clubrooms to the Florence Hotel, and thence to the pavilion. W. W. Bowers, Congressman from this district, presided and spoke briefly of the work of Congress, previous to introducing Mr. Estee.

Though suffering from hearseness, Estee made a most telling address, his remarks being appleuded frequently with much enchusiasm. The meeting was inaugurated amidst the booming of cannon, and broke up 'with cheers for Mr. Estee and the Republican ticket. At least five thousand people listened to the speaking.

AUGUSTA (Me.,) Sept. 10.—It has been a good day for Republicans, and a correspondingly bad one for Democrats, but the result was not altogether unforseen. To the rain and general apathy is due the light vote, and though the Democrats admit defeat, they do not show a symptom of discouragement.

CLARION (Pa..) Sept. 10.—W. F. Collner & Co., general store-keepers at St. Petersburg, this county, were robbed on Saturday of \$70,000 in bonds, notes and cash. The theft was kept secret in hopes of catching the guilty persons in disposing of some of the papers.

On Saturday night the store was closed at 10 o'clock. Four members of the firm, the book-keeper and clerk, finished balancing the books, counted the cash, and, after putting the latter into tin boxes, locked the store and went across the street. In ten minutes they returned to the store. The door, which they locked securely, was standing wide-open, and the tin boxes, containing bonds to the amount of \$50,000, checks and promissory notes to the amount of \$50,000, checks and argonissory notes to the amount of \$5000, and over \$5000 in cash were gone.

A search of the premises showed some one had been concealed in the store, and as soon as the force had left, grabbed the boxes and foliowed, unlocking the door from the inside.

NORTHERN PACIFIC RECEIVERS.

MILWAUKEE, Sept. 10.—Twenty-four receivers of the Northern Pacific branches, appointed simultaneously by Judge Jenkins and courts in Minnesota, have been retired under an arrangement between the receivers and the Reorganization Committee and the Farmers' Loan and Trust Company of New York, by which the Trust Company will operate the lines for a limited sum per annum. By this arrangement over \$60,000 per annum will be saved. By the new arrangement none of the leases are to extend beyond the main-line receivership. Counsel are now on the way West to consummate the deal. The Spokane and Palouse road and Northern Pacific and Puget Sound Short Line roads have been leased to the main-line receivers at reduced interest charge on each of \$41,490 for the first eighteen months, and \$20,745 for the second months. The new arrangement marks a great step toward effective reorganization of the Northern Pacific road.

The Son of a Wealthy Philadelphian ated Press Leased-wire Service CHECAGO, Sept. 10.-in a cell

CHECAGO, Sept. 10.—in a cell in the central police station, Benjamin F. Hagerman, the twenty-five-year-old son of a well-to-do Philadelphian, is barvesting a crop of wild oats and contemplating the ruin of a once promising career. He was strested last night charged with burglary and larceny. The evidence against the arrested last night charged with burgiary and larceny. The evidence against the prisoner is seemingly conclusive, added to which he has confessed the commission of the crime, and unless his father's wealth and influence intervene, it is probable the young man will round out a few fast years by a term in the penitentiary. He is wanted by the police of several cities, and should he be convicted of half the crimes with which he is charged, he will be gray-haired before he sees the light of day as a free man.

Benjamin, it is said, graduated from the high school of the City of Brotherly Love with distinction and honor. After that he attended an Eastern university, and in due time completts this education, to the pride and gratification of his pacents. After leaving school, however, Benjamin fell in with a set of fast young men, and began to sow wild cats at a pace that attracted much attention. His is the old, old atory of prodigality and rule. to sow wild oats at a pace that attracted much attention. His is the old, old atory of prodigatity and ruin. According to his story, he left home two years ago because his father refused longer to tolerate his excess's, and made it a condition of future support that he should never return to Philadelphia. The son agreed, and was granted a liberal allowance by his father. For a time the son went to the far West and managed to avoid criminal complications, although at Derver, Cheyenne and Ogden he accumulated some debts that still remain unpaid. Notwithstanding that his father granted him sufficient money to maintain him in suitable style, his habits of life were such that he found it impassible to live within his income, and absolute helplessness in the way of work made it necessary for him to resort to all kinds of dishonest means to obtain money with which to keep up his fast pace.

Hagerman came to Chicago a year ago and soon became known as a 'high-roller,' making several big winnings at the gambing-tables, which, however, he squamdered with recki as prodigality. He had lodgings at the Oroveland Hotel. At noon on the list day of August, it is said, he left his hots? and left behind him a board bill of \$50. It is charged also that he took with him a diamond pin valued at \$150 and a revolver bilonging to the proprietor of the hotel.

Last Saturday at midnight Detective Ell-

Last Saturday at midnight Detective Eliliott arrested Hagerman. Detective Eliliott is confident that young Hagerman has been guilty of other crimes in Chicago. He said the police of Kansas City, Fort Worth and other cities in the West have been making inquiries for him.

pid Failure.

Associated Press Leased-wire Service.

TOPEKA (Kan.,) Sept. 10.—Senator William A. Peffer arrived in Topeka at 1 o'clock today.

"Do you consider the work of the last Congress satisfactory?" asked an Associated Press reporter.

"Do 17" and the Senator icoked a trifle ruffied. "I consider the Fifty-third Congress the most stupid failure in the history of the nation; not a single act of public benefit was passed."

"What is your opinion of the new tariff bill?"

"I don't like to talk about it. The proceedings were so scandalous that I do not enjoy talking about it. I speak of the general discussion and the complete surrender of the Democrats to a handful of men. There were thirty-eight Northern and Southern Democrats in favor of what has always been advocated by the Democratic party, but there were six Eastern men, who call themselves Democrast, but are really Republicans, who controlled that majority in the Senate.

"At no time could they get a majority to support the proposed measure without a caucus, so they held the caucus and

gave instructions to have a bill prepared which would be satisfactory. Then the Sugar Trust came in with a demand that the sugar schedule be changed, and the six men stood out and said: We will have this bill or nothing,' and then came the surrender. How humiliating to see a large body of men lay down their arms before a half dozen."

"Why did you vote to put a duty on sait?" asked the reporter.

"I voted for a duty on both sait and wool, though I am really in favor of both free sait and wool. I discovered that the tariff legislation meant legislation in favor of class in this, and the revenue feature was completely lost sight of.—I showed the Senate that all our Kanass sait-makers wanted was to retain their territory—that is, that some duty be put on sait so that the area they supply might not be encroached upon by foreign sait. I favored a duty on wool because the bill proposed putting a duty on woolen goods, and I wanted the Kanass farmers who raise the wool to be treated as well as the manufacturers. This whole thing was a grabgame, and I simply did my best to see the Kanass people treated as well as either clauses."

The Senator is 63 years old today, but he bears his age well and looks better and younger than when he left Topeka.

mentioned as being desirous of securing the nomination for Sheriff. Rowland is a Puente man, and Mr. Hines halls from Wilmington.

Fred Potts has also an opponent in the County Auditorship race, Edgar Moore having come out with the hope of being able to look after the county's books.

Several other additions have been made to the list of candidates, and the Democrats may have something to fight for, after all.

The convention will meet this morning in New Turner fall at 10 o'clock, the delegations to be composed of the same men who mere several days ago and elected delegates to the State convention. Much of the usual preliminary business will, therefore, be avoided, for A. M. Stephens is to continue as chairman, and the same set of officers previously chosen will resume their duties. It had been thought that it would not be even necessary to have any committees appointed, but some zealous Democrats believe that a more radical anti-A.P.A. platform should be adopted, which would entail the work of at least a committee on resolutions and platform. Then there are others who say that as the members of the A.P.A. in the convention are so few it seems foolish to force an unwilling issue on this point.

The rules governing the action of delegates will be rigid. None but regular members of the convention will be allowed the privilege of the main floor, and each delegate will be obliged to present a nontransferable ticket when he comes in. The spectators and candidates will be obliged to find seats in the gaileries.

From the present outlook the chances for the indovement of Populist nominees appear very slight. If report is to be believed a resolution is to be offered the adoption of which will pledge the convention not to consider sin the nominations the names of any candidates which have been brought before other conventions. If this resolution is adopted there will be a number of disappointed Populists, some of whom are already in office, who have hoped that political lightning might strike them.

The Appointment of the Administra tive Officers the Bone of Con-tention Between the Parties.

A conference on the proposed new city charter was held yesterday morning be-tween members of the City Council and a number of gentlemen representing the Merchants' Association, the Citizens' League, the Chamber of Commerce and Board of Trade.

Board of Trade.

Some of the minor details of the proposed new charter were spoken of, but the principal point of discussion, and also the principal bone of contention, was as to whether the administrative officers of the city, including the City Clerk, City Attorney, City Engineer and others, shall be appointed by the Mayor or by the Coun-

cil.

Most of the Councilmen took the position that the latter method would be preferable, while the other gentlemen argued that it would be better not to give the Mayor so much power.

Among the gentlemen present were J. S. Slauson. G. J. Griffith, F. W. Wood, Max Meyberg, H. Jevne, Charles Forman, K. Cohn and Mr. McKoon.

The same amendments provided the City Engineer should have charge of the duties now devolving upon the Water Overseer until such time as a Board of Water Commissioners is appointed. It was also provided the City Engineer should be exofficio Street Superintendent.

Prof. Cook of Claremont was heard in regard to the keeping of bees, which is now prohibited by the city charter. He asked that that section be stricken out of the new charter. Bees are not as harmful as some people suppose. There are probably one thousand colonies of bees now within the city. Nature in this case gets the start of the city isw, for these bees happen to be wild ones. Bees are kept on roofs of buildings right in the center of New York, as well as other cities.

G. J. Griffith spoke against allowing bees in the city as requested. He said he had seen horses terribly stung out in the country, het thought such cases would be frequent if the keeping of bees were permitted in the city.

In reading further on the amendments, the provisions for the appointment of the members of the various commissions were passed for the present until the general plan of making most of the appointments by the Mayor or otherwise can be decided upon. The proposed amendments provided the Mayor shall appoint five members for each of the various commissions, subject to confirmation by the Council, the Mayor, however, not to be a member of any of the commissions.

Councilman Munson suggested that the Board of Health consist of two physicians, the Mayor, the chairman of the Finance Committee of the Council and also the chairman of the Board of Public Works. It would be a good thing to have the members of the Council elected for terms of four years, the members from even-numbered wards to be elected one year and those from odd-numbered wards to be elected words to be elected two years later.

Mr. Siguson and Mr. Griffith both argued that the business of the city offices should be systematized the same as with private corporations. For instance, there should be confered

Joseph J. T. Sheward.

THE price goes to one-half today; it is the odd lot in the Dress Goods Department. We have taken every piece of dress goods that have been slow sellers on account of the price, and have cut the figures exactly one-half. There will be no slow sellers on account of the price in this house. If the goods are too expensive to bring \$1 a yard, they at once go to 50c a yard. The hard times of the past year has made everybody economize. Expensive goods have been the slow sellers; that is no reason why we should pile them up on our shelves and allow them to remain there from year to year; that is the poorest kind of business. We have taken over 300 pieces of the finest and best goods in the house and have marked them to exactly one-half the original price; they are now as cheap as the cheapest goods; the \$1 goods now 50c a yard, the 75c goods now 37½c, the \$1.50 goods now 75c; not only a piece or two, but every piece of every kind in the house. The \$15 suits go down to \$7.50. The \$20 suits go down to \$10. The \$10 suits go to \$5. They are good goods. They are choice patterns. We have found another lot of cloaks that the pruning knife will reach at once. We divided them in two lots. One lot goes for \$1; the other lot goes out at \$2. They are going out with a big rush. Splendid for school, splendid for driving. Here is a lot of extra quality all linen crashes. They are worth 20c a yard; today the price goes to 12½c; they are made in Germany and are honest made crashes. We have sold hundreds of pieces the past year of the same class of goods for 20c a yard. They are worth 20c today. They are one of our big trade stimulators. Trade is showing a big increase. We expect to sell 50 per cent more goods this fall and winter than we did last, and the present large increase in the trade justifies the assertion. Remember today the big reduction sale of dress goods. All the odds and ends go to one half the regular price. All of our fine dress patterns are included in in this special reduction. Special prices in cotton flannels. Special prices on table linens. The 75c quality now 50c. Don't you want a shirt waist? The price goes down still lower; every shirt waist will go out before the close of the season. The price is moving them rapidly. Velvets are good; velvets are first class; what is better than velvets for trimming covert cloths? The new fall millinery is now on sale and the styles are entirely different from last season and what is still better, they are very much cheaper.

THE TOURNAMENT.

The grandstand was crowded and the bleachers all pretty well filled when 2 o'clock arrived, and the first event of the afternoon was called. It was evident from the start that the officers were not going to permit any loading, and every effort to keep the wheels moving met with the hearty approval of the spectators. This was especially marked when, in the second heat of the one-mile novice race, the reteree stepped upon the track, and stopped-all the wheels upon the track, and stopped-all the wheels upon the track, and stopped-all the wheels upon the track, and their appearance was cheered lustily. There was little charice for camplaint because of waits from the beginning of the races. In the dirst heat of the one-mile novice were G. Schmidt, unattached; W. Hatton, unattached; Charles W. Lehr, Redlands Cycle Club and E. A. Williams. They finished in the order named; time: 2:46. In the second heat there were four starters, dinishing as follows: George B. Cox, Riverside Wheelmen; D. E. Whitman, unattached; E. C. Morrow, Redlands Cycle Club; time 2:42.5-It was in this heat that the race was stopped, and a pacer put upon the track to bring the speed up. While waiting for the final heat, Mr. Obenar of Los Angeles gave an exhibition race of one-fourth of a mile backward; time 1:04.

In the final heat Cox won, Wasson second, Schmidt third; time 2:32.

The next was the half-mile, class B. In the first heat were the following, finishing in the order named; Phil Kitchin, Los Angeles Wheelmen; J. W. Cowan, Riverside Wheelmen; time 1:16 1-5. In the second heat, in the order named, were: W. A. Burke, Riverside Wheelmen; F. G. Lacy, East Side Cycle Club; E. Ulbricht, Los Angeles Wheelmen; time 1:13 3-5. In the final heat Burke won, Fox second, Kitchin initial; time 1:09 3-5. There was a great deal of interest in this race, especially among the Riverside Wheelmen; the 2:13. The finish was as follows: J. W. Allen, Los Angeles Wheelmen; time 2:35. The finish in the second heat was as follows: J. W. Allen, Los Angeles Wheelmen;

H. E. Scott, R. W.; A. Griffin, L.A.A.C.; F. W. Robbins, unattached; time 2:371-5. The second heat was paced by E. Williams, and the order of finish of the four startera was as follows: T. Q. Hall, L.A.W.; H. E. Bundy, O.C.W.; J. W. Allen, L.A.W.; G. Schmidt, unattached; time 2:43. For the third heat there was no pace-maker, but a time limit of 2:50 was placed upon the race. There were but three starters and they made good time, finishing: W. A. Taylor, unattached, first; George B. Cox, R.W., second; D. E. Whitman, unattached, third; time 2:33. The six who took first and second places started in the final, but four only finished. T. Q. Hall, L. A.W., won; W. A. Taylor, unattached, second; George B. Cox, R.W., third; time 2:28.1-5.

The greatest interest was taken in the five-mile handicap, in which there were fifteen entries. But there was some disappointment when but seven showed up to start, as they were so scattered around the track that it looked pretty deserted. There was more disappointment, as one by one dropped out, leaving but three to make the finish. But the last mile aroused great enthusiasm, and the 'three riders rode their best, finishing with J. W. Cowan, R.W., (150 yards handicap) about eighteen inches behind; C. Washburn, unattached (250 yards handicap) third. Those who started and dropped out of the race were L. W. Fox and Phil Kitchin (scratch.) and F. G. Lacy and Charles W. Lehr (250 yards.) The time in this race was 13:53. Last year it was 13:31, made by Shoemaker, with J. W. Cowan second.

September Meeting of the Board of Managers.

The September meeting of the board of managers of the Young Women's Christian Association was of especial interest.

The session was opened by devotional services conducted by Mrs. T, B. Ferguson. By request Mrs. Ferguson spoke of the missionary work to be opened in the new building on Main street between Second and Third streets. As the work of the Y.W.C.A. touches on all activities in Christian work in the city, the board heard gladly the report from this interest. The usual reports were heard. The Finance Committee having looked forward to the summer months with great anxiety were glad to report all bills paid and a small balance still in the treasury. They reported the contemplated changes in progress—the new hall at the rear of the rooms being still in the hands of the workmen. The association has been at considerable expense in making this addition to the rooms, and it is hoped that with the opening of the educational work the added accommodations will be found to assist greatly in the work.

The preparation for the season by the Educational Committee was reported as not yet complete. The high standard of excellence in instructors and class work of last year will be maintained. The committee reported that a number of strong classes for young women will be opened in October.

The Entertainment Committee has planned a series of literary, social and musical entertainments for the comig season. The Committee on Religious Work reported a good interest during the hot months in the gospel meetings, and the Bible class, and that the last week in September will be observed as a week of prayer by the Los Angeles Y.W.C.A.

The Noon-rest Committee reported that the average attendance for the month of August was fifty-four, and that business young women find the rooms a constant aid to them in providing a homelike resting-place at the lunch hour. Ladies who are shopping from both in and out of the city have made use of the lunchroom, and all such are given a warm welcome.

OHICAGO.** Sept. 10.—Wheat started strong at from %@\sc lower than the price at which it closed Saturday. It was a holiday in Liverpool. Receipts of wheat at Chicago were only 20% cars. Minneapolis reported receipts of 598 cars and Duluth 240, making 838 cars at both places, is compared with 1213 a year ago. The market "firmed" up until after the visible supply statement was published, and even for half an hour following that it appeared inclined to resist bearish increase of not more than 1,000,000 bushels. Meantine. December, which had opened at 67%, as after a slight-turn went down to 57%, had advanced to 88, became steady at around 47%, until was seen that the visible aunuly would, when the resember of the work of 74%, but there believed a good demand at that, turned up again about \(\frac{1}{2} \). Rumors became current at the latter point

that the New Yorkers had good authority for the prediction of a quite bearish government report on wheat this afternoon, and on that there was a clatter in the pit as the orice rolled down to 57, with sellers at that for a brief space, closing at 67%. Corn opened strong, under a belief that the government and the elements were both going to do something for the buils this afternoon. The government was confidently expected to confirm the worst heard from other sources recarding the extent of the drought's damage, and the Weather Bureau reported frost conditions for a large area of the Western corncountry tonight, with probably killing frosts in the more northern part of the country. The day's receipts being light, and the estimates for Tuesday also small, were additional causes for the early strength. After the heavy increase in the visible supply of wheat had begun to weaken that market, the local bears in corn found their opportunity and quickly knocked the buil feeling out of the corn market. There was an active trade during the first half hour. It then became outlet dull until effer the "visible" statement was received, when it became active again, while all the early buillishness was evaporating. May opened at 66%, with a sale as high as 56%, but hardly any business was done over 66%, all fluctuated for a time between 65% and 65%, and closed at 56%. Oats started with indications of strength and a sood obtsiness, but soon after the start the firmmess gave way. Firstcutations continued to rule in sympathy with corn, and still show no signs of independence. The prospects of a very bearish government report added materially to the activeness of the market. There was only one side to the provision market. If was a strong market from the start to the finish. Receipts of hogs here and elsewhere were quite light, and their prices here were about 50 over Saturday's average, as reported from the yards. Some buving rorders at the start could only be filled by bidding up prices, the offerings being light. January pork

SANTA BARBARA COUNTY. Speech by the Prohibition Candidate

for Governor.
SANTA BARBARA, Sept. 10.—(Special

Correspondence.) Last night Hon. Henry French of San Jose, Prohibition candidate for Governor, spoke to the Prohibitionists

French of San Jose, Prohibition candidate for Governor, spoke to the Prohibitionists at Orane's Hall in this city. Mr. French is an eloquent speaker, and is evidently very much in earnist. He did not expect to be elected, he said, but he thought some good might result from the Prohibition campaign; that their influence might grow. His hope for the party, he said, was in the education of the rising generation of boys and in woman suffrage. While he rode the hobby of the party almost exclusively from any other subject, he did not run into fanaticism, but dealt largely with facts. In giving an estimate of the saloons in the country, he said that if all placed together they would form a city diffunilist acquare. What a snap for a Democratic politician that would be! Mr. French said that he was in a hurry to get through with his campaign and return to his family and prune orchard. All the local interest today is centered in the convention at Lompoc. Yesterday the usual crowd assembled at the boulevard to hear the band. E. A. Thayer leaves this afternoon for Los Angeles to visit his wife, who returns this morning from a summer's visit with her parants in Woonsocket, R. i.

C. M. Gregory went to Los Olivas today by the stage line.

The attendance at the Summerland campmeting yesterday was very good. The speakers were Prof. Loveland, Dr. Ravlin and Mmc. Montague. They are all noted spiritualistic speakers, and gave some very interesting talks.

CROWN CITY CYCLING CLUB'S FIRST RACE MEET.

Pretty Warm for Racing, but There as Sport—The Winners—An-other Hotel Project—Public

PASADENA, Sept. 10.—(Special Correspondence.) The Crown City Cycling Club and warm weather for its race meet today, had warm weather for its race meet today, but the announced programme was carried out to the letter, witnessed by a great, crowd of citizens in carriages and on foot. The first event was the road race, in which the contestants started from the corner of Colorado street and Madison avenue at 9 a.m. and wheeled eastward on Colorado street to Dalsy satisfied at y am. and wheeles assward on Colorado street to Dalsy street, beyond Lamanda Park, on Dalsy to Sierra Madre atreet, east to Sierra Madre avenue, north to Live Oak street, east to Baldwin avenue, south to Sierra Madre street and west to the starting point, a distance of about twelve miles, with some bad road. There were sixteen starters, but three of them dropped out, Myers and Evans on account of fatigue and Hargreaves on account of an accident, which compelled him to change wheels. Crowell came in first, but Gaylord made the best time, 38m., 7s. Considering the intense heat, the dust and chuck holes, the time was good. The order, time and handicap of each contestant is here given: Place.

The afternoon races on Orange Grove evenue attracted a large crowd, the race course being lined with carriages, and at the finish a congestion of vehicles, horses and people almost blocking up the street. Some boys on broncos gave some extempore running races as a prelude to the afternoon's programme, but the cyclers showed up in line promptly at 3 o'clock. At the crack of the starter's pistol the contestants in the one-mile scratch race started—R. H. Gaylord, Carl Harvey and Charles Glass, and dhiehed the first heat in the order named. In the second heat the contestants came in with Charles Johnston in the lead, followed by E. D. G. Campbell and Ed Gamble. The final heat was a spirited race, finishing with Johnston in the lead, Gaylord second, Campbell third and Harvey fourth. The time was 4:06, which is not fast, but there was quite a heavy grade to wheel against, and the heat and dust also helped to retard the cyclers.

The one-mile novice race had three contestants to start, W. H. Stewart, Robert Hargrasves and W. Willis, coming in at the finish in the order named. There were seventeen contestants in the one-mile handleap, W. H. Stewart winning first prize and R. Hargrasves second, there being but two prizes for this race. Only two contestants showed up for the boys' race, Harry Lathrope and Charles Painter, the former winning.

The Cycling Clug is hoping that the racts today will stimulate interest in the sport, and also pave the way toward securing grounds for laying out a circular course. The club wants to lease a suitable lot, and it is said there are citizens ready to put up the grand stand and other structures trequired on the grounds. There are disadvantages in a straightaway race course which do not pertain to a circular one, which do not pertain to a circular one, where spectators can see the whole race rom start to finish.

"WOODMAN, SPARE THAT TREE." "WOODMAN, SPARE THAT TREE."

PASADENA, Sept. 10.—(To the Editor of The Times:) For many months the sight of reckless vandalism right before our eyes here in Pasadena has made me, in common with many others, almost wild with indignation every time I pass what was once beautiful "Carmelita." It is impossible for me to longer refrain from making public my protest.

I refer to the ruthless felling of the grandest trees in the San Gabriel Valley. The seeds gathered from the uttermost parts of the earth and planted by the

rate seeds gatered from the uttermost, parts of the earth and planted by the hands of Dr. and Mrs. Carr seemed glad to live in such a land, and right generously did they show their appreciation. So much so that "Carmellta" was the show place of the valley, and the delight of the whole people, as well as the botanist.

show place of the valley, and the delight of the whole people, as well as the botanist.

But it is "Beautiful Carmelita" no longer, I can think of but one comparison. It takes God and all the forces of His nature a score of years to grow one of these trees. It takes a man with an unpoetic soul and a sharp axe about fifteen minutes to destroy one. I suppose the lawyers would tell us that Carmelita belongs to its new owner, and that he has a right to do as he pleases with it. But what about that grand, old pine tree which stood out in the sidewalk, beneath whose shade so many a weary traveler was grateful to pause and rest and drink in the beauties of the lovellest dandscape on earth? The new owner cut it down. By what right? A prominent city official told me not long ago that I didn't own the trees in front of my home, and couldn't cut them down.

One need only pass up West Colorado street most any day to fully appreciate the cry, "Woodman, spare that tree!"

I am told that Mrs. Carr is heart-broken over this bloody massacre of her dearly-beloved trees, but can do nothing but weep.

He unlitched the mules and tied them to a telegraph pole, leaving the wagon lying directly across the track. When the 7:30 up train came along this morning in a dense fog, it rounded the curve and cleared the track with a rush, the result being a cord or so of kindling wood which was once a fine wagon-box. The engine sped on its way with no other damage done.

The hotel, which has now passed into the management of the Redondo Company, continues to attract more guests than at any other time this season, owing, doubtless, to the warm weather in town. THAT FALSE ALARM.

An Explanation Which is Not Altogether Satisfactory.

Yesterday morning a short article was published in The Times with reference to the false alarm, which brought out the fire department on Saturday morning. A political procession had formed on Spring street, and crowds had gathered along the line of march, when the explana came line of march, when the engines came tearing madly through the people at full speed. In the rush to escape being run over, children were bruised and hurt in over, children were bruised and hurt in a number of instances, and even full-grown men found it difficult to avoid serious injury. These positive facts The Times etated briefly, with the interjection that public opinion stamped the act of turning in a needless alarm at that time as dangerous and criminal, and subsequent developments have borne out fully the truth of the report.

In the Evening Express Chief Moriarty, of the fire department, comes out in a

of the fire department, comes out in a lengthy interview, which he prefaces by saying that the article in The Times was untrue, but in his subsequent talk falls to cite one point upon which error was made. He said that Mr. Strohm, a member of the City Council, turned in the alarm in order to show the visiting San Francisco firemen how the department worked. Also that Mr. Strohm mistock the political procession for a crowd of the visitors marching to the banquet hall, and, wishing to take advantage of their appearance or masse, let loose the gong, which brought the engines to the scene. He also cautiously explains that Mr. Strohm made a mistake when he used the alarm foox at the corner of Second and Spring streets, as it had been agreed to ring in an alarm from a Main-street box.

The excuse appears to be rather too shallow to commend itself to the chinking citizen, and, admitting dil that Moriarty anys to be true, does not justify the lack of good judgment on the part of the department. Supposing even that no procession was on the streets, the turning loose of fire engines "just for fun" is a practice as dangerous as it is heedlessly carcless. There are always a great many people on the streets Saturday evenings, and the absence of marching men would scarcely thave iessened the danger of running over some one, and it will presumably not be a source of much comfort to Los Angeles citizens to know that the fire department officials regard human safety in the perdogmance of their duties with so much indifference. Had a man or child been run over and killed, the plea of mistake, which men of good judgment do not often have occasion to make, would have availed little toward restoring life or saving the guilty party drom eriminal prosecution; and the city might have been confronted with several damage suits.

In regard to the statement that a crowd of men, at least one of whom is supposed to have been a member of the fire department, took possession of a hack, in which they drove arcound the city for an hour or two,

A CLOSELY CONTESTED GAME OF BASEBALL.

The Santa Anans Defeated by the Francis Wilsons of Los Angeles Some Lively Pistol

Practice

SANTA' ANA, Sept. 10.—(Sepcial Correspondence.) Santa Ana did not win the baseball game today, but it came so near it that for a time it looked as if victory would perch upon its banner.

It was just 2 o'clock when Umptre Mansur called the game, and the home club started off to try conclusions with the Francis Wilsons—and their new uniforms—of Los Angeles. Tyler's curves, however, could not be located to advantage, and therefore no circuits of the bases were made until the Los Angeles boys themselves started the fashion when they took a turn at wielding the willow. In their first inning they scored two runs, and in the second inning the home team managed to get a credit mark on their side of the tally sheet. In the third inning the visitors added one more run, and in the fourth two more, while the Santa Ana boys squeezed out but one in the fourth and none in the fifth or sixth. As the visitors andse another round of the bases at their sixth turn at the bat, the game began to look entirely one-sided, and the spectators began to tell how the home team never practice together, and they ought not to try to play ball until they would take time enough to get into condition. But about this time Hickey started in to breaking bats and lambasting kids on the head with foul tips, when they got too close, and Harlin began to but the little sphere with his head when he couldn't get out of its way. Wood also took a hand, and landed a beautiful three-bagger over in right field, and while Sepulveda was chasing the ball across lots the tally sheet began to get a balance on it that was satisfactory to a degree. When the dust cleared away and the scorer figured up the result, it was found to be the same on both sides—d to 6. Then the local players were rash epough to get a trifle reckless, and, as a natural result, they allowed the visitors to squeeze in another run at their next turn at bat. After that inning neither side scored, and victory went to Los Angeles.

"DEY'S BLOOD ON DE MOON." There was a sort of insurrection among

the negroes and Mexicans over near the corner of French and Sixth streets Sunday night about 10 o'clock, and before the officers arrived on the spot to quiet the disturbance several shots had been fired, fortunately, however, none taking effect. It seems that a number of the dark-skinned sons of Africa, together with several dusty maidens were indulging in a quiet little game of hide-and-go-seek in the neighborhood, when two Mexicans came along, who wanted to join in the sport. To this the darkles strenuously objected, and in order to emphasize their command to the Mexicans to move on, one of them drew from his trousers a "gun" and pointed it straight at the intruders. The Mexicans then moved on without further argument, except to call back to look out for them; that they would be backlater on;

The darkles considered that this threat

out for them; that they would be back-later on.

The darkles considered that this threat foreboded evil, and at once set about to "heel" themselves for the occasion. Sure "heel" themselves for the occasion. Sure enough, in about half an hour the Mexi-cans returned and began a fusiliade with rocks on the house into which the darkles had retreated. This shower of "ground bis-cuits" was only momentary, however, for it had not more than begun until the darkles rushed out of the house and charged on their assailants. One of the big black fellows, with an ancient "pep-per-box" in his hand, led the charge, and as the Mexicans took to their heels he followed at a record-breaking pace, let-ting go a war-whoop and a shot from his "pepper-box" at every jump, either of

ting go a war-whoop and a shot from his "pepper-box" at every jump, either of which was enough to frighten an ordinary individual half out of his senses.

The neighborhood was, of course, aroused, and Deputy Sheriff Buckley, happening to be in the vicinity, hurried toward the scene of the trouble. He had not gone far until one of the Mexicans turned and hove in sight around a street corner and came, at a terrific gait, right toward him. Buckley did not at first object to the fugitive running into his arms, but a moment later when the big darky swished around later when the big darky swished around the running into his arms, but a moment later when the big darky swished around the same corner after the Mexican, and then again opened fire at him Buckley thought it was time to hunt cover, and therefore, immediately sought protection behind a little two-inch umbrella tree that thought it was time to hunt cover, and therefore, immediately sought protection behind a little two-inch umbrella tree that had just been planted alongside the pavement. This was not much protection, but then he felt he was getting something between himself and the flying bullets, and no doubt that fact relieved his anxiety for the time being to a certain extent. In less time than it has taken to relate this portion of the story, the Mexican was up to where the deputy had jumped behind the umbrella bush, and the darkey was only a few feet in the rear and gaining at every jump. Then the officer called on both of them to stop or he would take a hand in the shooting business himself. Both came to a standstill and then the darkey proceeded to tell the officer how the two Mexicans began the assault, and how "Dey's blood on de moon, when dey fools wid us." The Mexican had but little to say, as he was too busy keeping an eye on the darkey's "popper-box," evidently in fear and trembling that there might be a few mere charges yet to come.

The officer took them in charge, and today a warrant was issued for the arrest of the Mexicans for disturbing the peace and quiet of the neighborhood. They will be brought before Justice of the Peace Freeman tomorrow (Tuesday) afternoon at 1:30 o'clock to answer to the charges preferred against them. Meanwhile, they will languish within the confines of the city the sattle and mayhap the thought will occur to them to have the darkies brought up on a charge of assault with a deadly weapon or something of that sort.

Fire on the East Side.

Last eight about 10 o'clock a cottage at No. 253 North Sichel street, East Los langeles, occupied by George W. Rushton, was totally destroyed by fire. The fire was itarted by a baby overturning a lamp. Mr. Rushton and his wife were out in the rard at the time, and the infant narrowly scaped a terrible death. The room was tail of smoke when Mr. Rushton rushed in a save his child. He could see nothing, out in groping about he discovered the mant in one corner of the room almost unfocated and unconscious. On being taken out into the air, it soon revived, nowever. The building and contents are a total loss, this whole amounting to \$1500 to \$2000.

The main sewer through the district has been built large enough not only to accommodate the sewage from that district, but also from territory north of it. The larger size, of course, has caused an increased expense, which increase the people of the district claim they ought not to pay for.

CRAIG, STEWART & CO.

They Refuse to Any Longer Be Dictated to by It is said to be a fact well understood in trade circles that nearly all of the three trade circles that nearly all of the three thousand million cirgarettes manufactured annually and mostly consumed in the United. States are the product of one great combination or trust, known as the American Tobacco Company. This gigantic monopoly has a very slick way of ceering its customers and keeping down troublesome competition. It sells its goods at a certain price for a certain period, and at the end of that period the jobber, if he has not in the meantime bought of anybody else, is allowed a rebate. The period has usually been six months and the rebate 35 cents on each thousand cigarettes burchased. But all jobbers are required to sign an ironclad contract not to sell any other cigarette than those made by the trust, and any violation of this contract works a forfeiture of all claims to the rebate, and it cannot be c'lected by law. In fact, the rebate, at the best, is a purely arbitrary matter with the trust. It can pay or withhold it, just as it pleases, and more than once, it is claimed, it has kept it back in some portions of the country while paying it in others.

Naturally, such a state of affairs has killed all legitimate competition, and dealers as well thousand million cirgarettes manufactured an

all legitimate competition, and dealers as well as consumers are being fleeced. The infamy as consumers are being neeced. The infamy of the thing has long been apparent to job-bers everywhere, but so fied up are they that it is hard to escape. Some of them are doing it, however, at great personal inconvenience and sacrifice, and such as are, are venience and sacrince, and such as are, are deserving of the highest commendation. And it is to the credit of Los Angeles that one of the houses to pioneer the movement on this Coast is Craig, Stewart & Co. of this

city. Something like two years ago the National Cigarette and Tobacco Company was formed in New York, with the purpose of competing for the cigarette trade of the country. They put goods into the market, the superiority of which could not be questioned, and at orices that ought instantly to have secured them the preference anywhere. The odds against them have been tremendous, but they are making a gallant fight and will down the great trust yet, sure. It is this commany's goods—the "Admiral" and "Opera Lights" cigarettes—not made by a trust, that Crake. Stewart & Co. will hereafter handle. In conjunction with these, they will also handle the well-known cigars, "Duless de Cuba" and "El Merito," manufactured by Boltz, Clymer & Co. of Philadelphia, who are represented in this city by Dan H. Priest, who will assist in placing on this market these particularly meritorious cigars. Something like two years ago the National

A VALUABLE BOOK.

Prof. Cuyas is Again Remembered by

Royalty.

Royalty.

Prof. A. Cuyas, an old and well-known resident of this city, received yesterday a large book of travel, written and illustrated by Archduke Luis Salvador of Austria. The work was sent by the imperial mail and -Well-Fargo's express, costing \$50 for transmission, which sum was all prepaid by the Archduke.

This book is the last of a number of similar works which have from time to time been presented to Prof. Cuyas by the same royal personage.

One of the oldest of the works which the former gentleman now has is descriptive of Los Angeles and surrounding country. It is dated 1878, and was from facts gathered in 1877, when Archduke Salvador, traveling incog, as he usually does, visited here. The book is written in German, and contains several illustrations from sketches made by the Archduke himself.

The other books which Prof. Cuyas has

self.

The other books which Prof. Cuyas has received from the Archduke are all printed in German also, and were illustrated by himself. The collection includes three volumes on the "Liparischen Inselm" (Lipari Islands,) "Stadt Palma" (City of Palma,) "Insel (Island) Menorca," "Insel Baladares," the three latter being on travels in Spain, one on "Paxos and Antipaxos und Jonischen Meer" (two islands near Italy,) and one descriptive of a trip around the world.

Prof. Cuyas states that he will be pleased to have any German-reading people who so desire to peruse the books. He has them at the Columbia Hotel.
